### Myopic Little Men

(An Editorial)

A group of myopic little men in Amarillo Tuesday issued a statement asking for the resignation of Senator Grady Hazlewood.

Obviously more interested in party than country and principal, they sought to castigate a man who has given more than 30 years in the service of his state and country.

They asked for Hazlewood's resignation because he had the guts to endorse Ronald Reagan for President. Yes, these little men in Amarillo had the temerity to brand Ronald Reagan an extremist.

I challenge any member of the Potter County Democratic executive committee to show any evidence that Ronald Reagan has been guilty of extremism in the operation of the state of California of which he is governor.

Is paying your debts extremism? Under Reagan's administration of California that state has paid off some half billion dollars in indebtedness bequeathed him by his predecessor, Democrat Pat Brown.

Is restoring law and order extreme? There has been peace in the streets of the nation's second largest state since Reagan was inaugurated. "We simply will not endure lawlessness," Reagan has declared repeatedly.

I hope Potter County Democratic Chairman Frank Baughman can find a step ladder when he gives the committee's statement to Senator Hazlewood. There's no one on the committee tall enough to stand on the ground and HAND it to the Canyon senator.

### Committee Asks Solon To Quit

Grady Hazlewood has been asked by the Potter County Democratic executive committee to resign his post as state senator from the 31st District.

Potter County Chairman Frank Baughman said the committee was unanimous and that the action was an aftermath of the senator's endorsement of Ronald Reagan for the presidency.

Hazlewood spoke from the same platform as Reagan at a Republican fund raising dinner in Amarillo July 19.

Hazlewood could not be reached Wednesday for comment. Grady Fox, Randall County Democratic Chairman, had no comment.

Baughman indicated that the senator's position on Reagan and his endorsement of Congressman Bob Price was an embarrassment to the committee.

Baughman admitted that the committee could do nothing to force Hazlewood's resignation. The senator's current term runs through 1970. Hazlewood has held office as a Democrat for more than 30 years. He is second ranking member of the Texas Senate in seniority.

The senator is engaged in a well-publicized feud with Preston Smith, Democratic nominee for governor.

Following is the text of a statement released by the Potter County Democrats:

"Since Senator Grady Hazlewood has openly endorsed for President an extremist candidate of the opposition party, has attended and did participate in a major fund raising effort for the opposition party and further aggravated his betrayal of the Democratic Party by publicly endorsing the opposition party's congressional candidate for the 18th Congressional District of Texas, the Potter County Democratic Executive Committee demands the immediate resignation of Grady Hazlewood as Democratic Senator from the 31st Senatorial District of Texas and condemns his calculated and intentional disregard of the party preference of those who elected him."

### All-Stars Take Bow

Canyon's Little League All Stars bowed out Monday night to Iowa Park All Stars in a single game regional elimination at Shepherd Air Force Base field in Wichita Falls.

The score of 7-0 came as a result of strong pitching and hitting shown by the Iowa Park team. The team from Iowa Park will now advance to a sectional tournament in Abilene.

The Canyon All Stars, coached by Dick Dawdy, were advanced to the regional elimination in Wichita Falls as a result of two consecutive championships which they won at an area tournament in Canyon and a district tournament in Borger.

### Not Grave Threat Says County Agent

Greenbugs have Randall County milo growers worried but County Agent John Brazzil says the infestation has not reached alarming proportions.

Brazzil said entomologists with the Texas Agricultural Extension Service and Experiment Stations do not believe the situation is serious enough to warrant spraying at this time.

"Spraying would drastically reduce populations of beneficial insects which are beginning to build up," said Brazzil. "These insects should be given a chance to work in reducing the number of greenbugs."

The county agent said entomologists believe that if control measures are taken now,

more than one spraying may be needed since reinfestation is highly possible due to greenbug buildup throughout the area.

Brazzil noted that some Panhandle County farmers have found it necessary already to spray as many as five times. He said average cost for spraying is \$2 an acre.

This buildup should slow down during hot weather, Brazzil said.

Greenbug counts are running as high as 2,000 to 4,000 per leaf in many fields, according to Brazzil. The heavy populations are on the lower leaves.

Brazzil pointed out that the insects do not cause enough damage to justify control measures on grain sorghum in the pre-boot stage or later. Very small plants, which are less than a foot high, are more susceptible to damage.

Very little maize dwarf mosaic, a plant disease which plagued grain sorghum farmers last year, has turned up in this year's crop.

The county agent says prospects for a good grain crop in Randall County remain good in spite of the insect problem.

"Rain will be needed within the next two weeks if dryland is to make a normal crop," he said. "Irrigated sorghum is now mostly in the boot to early head stage and has reached the season of peak water use. Moisture stress from insufficient irrigation water can reduce potential yield."

Most livestock in the county have had a good summer, according to Brazzil. He said range grass is drying some but very good gains have been made by cattle in all areas.

Driving examinations and tests will be administered here every Tuesday and every second and fourth Thursdays by the Texas Department of Public Safety's drivers license division.

Patrolman Jim Ward will give the tests and exams but licenses may be renewed Monday through Friday from 8 a.m. until 5 p.m.

Those wishing to renew their licenses should bring the renewal card, undamaged, sent them from Austin, to one of the renewal stations in the State of Texas. It is wise to also bring the current driving license.

The Canyon renewal station is located in the Randall County Courthouse, but any Texas license holder may renew his license at any renewal station in the State, regardless of the county in which he resides.

### Warren Recaps City Progress

W. A. Warren reminisced about early days in Canyon as some 30 old settlers gathered at Legion Hall for their annual reunion.

Punch and cookies were served by Canyon Chamber of Commerce.

Warren, who was mayor of Canyon eight years from 1942 until 1950, told of early efforts for progress in the city. He said a horse once drowned in front of the present site of Warren's store on the west side of the square in downtown Canyon.

He told of the efforts of local businessmen in securing the placement of Buffalo Lake at Umbarger. He mentioned that Congressman Marvin Jones was instrumental in securing funds for the project.

Owner of The Canyon News, Troy Martin, made the dedication talk for a marker located at the door of The News office. Acceptance speech was by Mrs. Clyde Warwick, Randall County historian and publisher emeritus of The News. Her husband, the late Clyde Warwick, was publisher of The News from 1910 until 1955.

Levi Cole, chairman of the board of First National Bank, gave the dedicatory speech for the historical marker placed at First National Bank. Acceptance was by W. E. "Bill" Adams, bank president.

Mrs. Ed Harrell made the dedication talk for the marker for the W. F. Heller home site. Heller was the first to farm in the county.

Master of ceremonies for the occasion was County Judge Carroll Brown.

Following the dedications, the group toured local historical markers in buses provided by Canyon School System.

### Amphitheatre Has Minor Changes Made

Some minor construction at the "TEXAS" site in Palo Duro Canyon State Park has been completed, according to officers of the show-sponsoring Panhandle Heritage Foundation.

Sidewalks leading to all the Pioneer Amphitheatre entrances have been completed, enabling actor and set movements at a shorter distance to the actual production area.

Two other changes, construction of emergency dressing rooms just behind the wings and a long cement tunnel below the stage at the edge of the gully, have also been made.

With the changes, closing time for the production has been moved to about 11:30 p.m.

W. A. WARREN

He also told of early paving here. He said people thought then that it was enough to pave around the square and were of the opinion that this would be all the paving Canyon would ever need.

Warren moved to Canyon in 1921 after having visited here in December of the previous year.

The former mayor spoke in dedication of a historical marker at city hall. Accepting the

### Allotment Notices Are Mailed By ASCS

Notices to farmers in Randall County of 1969 wheat allotments are being mailed, according to Donald F. Lloyd, office manager for the local Agricultural Stabilization and Conservation Service office.

The 1969 allotments will be approximately 13 per cent smaller than the 1968.

To participate in the 1969 wheat program, farmers will be required to divert the difference between the 1968 and the 1969 allotment. This amounts to 15 per cent of the 1969 allotment and is the minimum diversion requirement.

"This minimum diversion does not earn payments and does not reduce the acreage of wheat permitted—farmers would still be permitted to plant their full 1969 allotment," he said.

In addition, farmers will have an option of diverting an additional amount up to 50 per cent of their allotment. This (See NOTICES, Page 7)

### Originals Of 'TEXAS' To Aid Scholarship

"TEXAS" Originals will be presented Tuesday night in the Branding Iron Theatre at West Texas State University under the sponsorship of the WTSU speech department.

Curtain time will be 8:15 p.m. and admission will be free.

The entire show will be presented by members of the "TEXAS" cast revealing their additional talents aside from the outdoor show which is presented in Pioneer Amphitheatre of Palo Duro Canyon during the summer months.

Purpose of the production will be to open a scholarship fund to benefit a "TEXAS" performer next fall in further studies of the field of performing arts. Theatregoers will be served refreshments in the intimate theatre during intermission and donations collected will go into the scholarship fund which is to be administered by William A. Moore, Royal Brantley and Neil Hess with three additional cast members from "TEXAS" being used in the selection committee for awarding the scholarship next season.

### Local 4-H Youth On Talent Tour

Sue Kirby will represent Randall County 4-H Clubs this week over a 4-H Talent Tour to points in Texas and surrounding states.

Miss Kirby, daughter of Mr. and Mrs. C. A. Smith of Canyon, is a member of the Wagon Wheel 4-H Club and has been active in 4-H work for six years having participated on both the county and district levels in public speaking contests.

The 4-H Talent Tour, sponsored by Producers Grain Corporation of Amarillo, is an expense paid educational tour for one boy and one girl from each of the eight PGC districts. Miss Kirby is the 4-H girl selected from PGC District 3 which includes Deaf Smith, Oldham,

Potter and Randall Counties. The Talent Tour will be by chartered bus.

Miss Kirby will be a sophomore at Canyon High School this fall. She is a former member of the Junior High Student Council and last year worked in the counselling office at the junior high school. A member of the First Methodist Church, she is active in the Methodist Youth Fellowship.

In 4-H work, Miss Kirby has showed pigs and calves in the Randall County Junior Livestock Show and has been a member of three Share-The-Fun contest groups as well as giving safety demonstrations and completing a number of units in food and clothing. She has instructed three local 4-H girls in Food Unit I and last year was a junior leader at the Randall County 4-H Youth Camp.

An orientation for the Talent Tour was held in Amarillo Sunday and the group departed Monday by bus on the trip. Points included on the trip will be Corpus Christi, where the group will tour the Producers Grain Port Terminal and have a boat tour of Corpus Christi Harbor; Houston, where the group will tour the Astrodome and see a baseball game of the Houston Astros vs. Philadelphia and a tour of the NASA Manned Spacecraft Center. The group will return by way of Arlington, where they will spend Sunday at "Six Flags Over Texas".

### NEW SCHOOL BUDGET EYED

Canyon school board Tuesday night looked over a proposed budget of \$1,653,755 for the 1968-69 school year.

Expenditures for the current year are expected to come to \$1,494,877.

School Superintendent Jerry Jacobs said increase in debt service of \$116,750 accounts for the bulk of increase in the budget. Added cost of instruction for the coming year will be about \$40,000, he said.

### Entrances Are Changed At Refuge

Visitors to Buffalo Lake National Wildlife Refuge are asked to use the northwest entrance to the refuge area Monday through Friday.

Both the northwest entrance and the east entrances will be open Saturdays and Sundays. On weekdays, the visitors may use the northwest entrance and visit either side of the lake.

The northwest entrance to the refuge may be reached by using the road leading south from Umbarger.

### Straw Vote Set By News

The Canyon News this week is conducting a straw vote on the GOP national convention.

Mark your choice on the ballot provided on page 2 of the front section of this newspaper. In this way The News hopes to find out which way the wind is blowing in Canyon.

### COVERING FUMBLE

There is no basic difference between the adolescent of yesterday who raced his saddle horse along country roads and his grandson who races his automobile on our highways; but the destructive power of everything in our modern world has been multiplied many fold.

There were three bidders. Hazlewood Dairy was awarded the milk contract with apparent low bids for supplying half pints of homogenized milk at .069 and chocolate milk at .073. Three firms submitted bids.

Swift was awarded the contract to supply ice cream with bids of 38 cents per dozen on frozen novelties which retail for 5 cents each and 80 cents per dozen for frozen novelties which retail for 10 cents each.

Mobil Oil Corporation was awarded the contract to supply fuel, oil and greases for the school during the forthcoming term.

FROM THE  
CANYON RIM

I talked to a Republican party worker this week who fears that George Wallace will hurt the chances of Republicans electing a President no matter how many popular votes the GOP candidate polls.

"We may capture the congress but we'll have a tough time getting the majority of the congressional delegations in 26 states," he explained.

Under the Constitution, the House of Representatives elects a President if no candidate is able to amass a majority of the electoral vote. Each state has one vote and that vote is cast for the candidate favored by a majority of the state's repre-

sentatives.

Thus a candidate could poll more popular vote than any other aspirant and his party might have the majority in Congress and still lack the distribution among the states to elect him President.

For example, Republicans might lack one representative having the majority in the Congressional delegations of 26 states and have ALL the representatives of the remaining 24 thus giving them overwhelming control of the Congress. Yet, the one vote majority of the Democrats in each of 26 delegations might deny the GOP candidate the Presidency. This

is far fetched but it could happen.

West Texas State University officials can expect some trouble next fall.

The Students for a Democratic Society Southwest regional newsletter singled WTSU out for comment in a recent issue.

The university administration was referred to as "typically oppressive."

The SDS has been described by the FBI's J. Edgar Hoover as a group tied in with the communist party.

SDS undoubtedly is a disruptive element across the country, especially on campuses.

The newsletter claims "ten or twelve" members on the West Texas State Campus and has the temerity to declare this a cross section of the student community.

The SDS criticizes a "Code of Student Life" which it says was written in virtual secrecy by WTSU officials and a select bunch of faculty and students.

Some of the SDS members on the WTSU campus stand out because of long, untidy hair, general filth and an unkempt appearance.

The SDS newsletter goes on to complain bitterly about treatment of its members at A & M where, it says, Aggies (both military and agricultural types) have engaged in "numerous physical threats and incidents of hair and beard cutting by an-

onymous' gangs."

I don't want anyone to ever tell me another joke reflecting on the intelligence of the Aggies. Their treatment of this draft-dodging, America-baiting, long-haired outfit shows they have better sense than the faculty at Columbia where a group of malcontents, led by an SDS member, took over and vandalized several of the university's buildings last school term.

Not only have these renegades at Columbia had little or no punishment for their lawlessness, but the administration apparently has acceded to most of their demands.

If such lawlessness is visited upon West Texas State, I hope the administration will stand firm regardless of the cost. I had rather see our campus leveled than to hand it over to the SDS.

I began my newspaper career 22 years ago in Borger. I started to work on The Borger News-Herald about the time a young World War II veteran was sworn in as Hutchinson County Sheriff.

That man was Hugh Anderson. Hugh is still sheriff at Borger. During my time as a reporter I have covered the offices of three sheriffs. These include Hugh, Potter County Sheriff Paul Gaither and Sheriff L. S. Johnston.

I met all three together and got a picture of them Monday afternoon in Palo Duro Canyon

State Park at the Texas Peace Officers Association barbecue. They are all three fine officers. It has been a privilege to have worked with them.

On this page this week we are running a ballot giving our readers a chance to name a choice for Republican Presidential candidate. I would appreciate this ballot being filled out and returned to The News office by Monday night so we can tabulate our straw vote and see how nearly the GOP convention follows Canyon's wishes.

## Our World

BY ANN BROWN

The Johnson Administration might well be likened to a huge skyscraper that is being renovated within and without--while termites chew away at its foundation.

The primary concern seems to be for the criminal, his rights and his welfare. We must have new and better prisons--for the few convicts who spend a little time there. Escape-proof Alcatraz had to go; it was an insult to human dignity (of course, murder is not). The death penalty must go, regardless of the innocent people who will be murdered by the escaped--and paroled--murderers.

The slums must give way to modern housing developments (which may rapidly become new slums). The indigent must be provided with a decent standard of living, whether or not they are decent--or willing to work. And this unnatural concept has been extended almost to the ends of the earth--on American money. Brazil (with its three-day work week) is clearing away century-old, vermin-infested slums. Between 1949 and 1966 we poured almost 2 billion dollars into aid to Brazil, a country with area and potential comparable to our own.

Labor unions have been allowed to resort to everything from murder on down to enforce their demands for higher wages and better fringe benefits.

In addition to newer and better schools of all kinds, millions of dollars have been invested in educational research grants. Federal money has provided bigger and better hospital facilities of all kinds.

Billions have been spent to prevent water and air pollution, and to provide recreational facilities.

Participating in 4-H State Horse Judging Contests in Fort Worth Aug. 8-10 will be Dan and Joe Watkins of Canyon.

Also winning honors at the regional meet was Krista White.

Tax money has been used to insure faster and safer air travel.

But while all this money and energy is being expended on the superstructure, what is happening to the foundation of our agrarian society: agriculture?

Farming in the United States employs 6,000,000 workers, which is more than the employment in the steel industry, transportation, public utilities, and the automobile industry combined.

The value of current assets of agricultural investments is approximately two-thirds of the value of all corporations in the United States. Or it is equal to about half the market value of all corporation stocks on the New York Stock Exchange.

Three out of every ten jobs in private enterprise in the United States are related to Agriculture. Approximately 16,000,000 people are involved in supplying the farmers' needs, and storing, transporting, processing, and selling the products of agriculture.

In spite of the strategic position of the farmer, he receives less for his work than most non-farm people. In 1965 the after-tax income of farm people was \$1,510 whereas non-farm people had an income of \$2,405. Yet the farmer works about 120 hours a week compared to his city cousin's 40-hour week. In 1966 and 1967 the average farmer operated in the red. The majority of farmers had to choose between mortgaging their farms or abandoning them.

From 1945 to 1965 2.6 million farmers were "liquidated." And in President Johnson's budget message to Congress January 25, 1965, he said: "... farming alone cannot be expected to provide a decent living in the future for more than about 1 million farm families. . . . That figure called for the liquidation of 2.4 million more farmers.

Rural businessmen warn that other businesses will be wiped out by the thousands, and the small town will wither. Said a rural banker:

Every time we lose 10 or 12 farmers from our community, we lose the people who would spend the income to sustain one average-sized, small-town business--a matter of roughly \$100,000.

At the rate they have been falling, no doubt the 1970 census will reveal the 2.4 million unwanted farmers have been annihilated.

L. B. J. did not shut the farmers up to starve as Stalin did the 7 million Russian farmers in the '30's, he just turned them loose to starve--or else.

In response to Johnson's request for further liquidation of the farmers, Rep. Harold D. Cooley (Dem.), of North Carolina, asked a very pertinent question: "Would the American public then be at the mercy of a few giant producers who would control their very sustenance?"

Last Friday night the National Farmers Organization met in the Hereford Community Center, its third meeting in the

area. (Remember the spring of 1967 when the N. F. O. conducted a paralyzing milk strike in a 25-state area in the North?)

Farmers are organizing--not because they WANT to, but because it appears to be their only hope for survival. They cannot continue to sell their produce below cost of production.

As wages and consumer goods have gone up, farm prices have gone down. How can a civilized nation expect the farmers to continue to spend their life savings to feed an affluent urban society?

In 1965 the average American farmer was 60 years old. His sons were long since gone from the land. When the farmer sent his son to college, the average college graduate could not see going into a business--even as a gift--where he would earn about 1% on his investment, and get nothing for his labor.

The farms are here to stay. But they will be taken over by a new breed. The independent, peaceful, conservative farmers are dying out.

Farmers were "guaranteed" 90% of parity prices. Remember? The American farmer must at least get a living from his produce in the very near future, or the land will be taken over by objective businessmen (if the Communists don't beat them to it).

It is inevitable that farms show a profit or Americans will starve. When the drab foundation is gone, the beautiful superstructure will come crashing down.

## Four WT Faculty Members Named

Four new faculty and staff members have been named at West Texas State University for the 1968-69 session, according to President James P. Cornette.

They are George S. Wanamaker, assistant professor of physical education; Richard F. DeVoe, assistant professor of business; Timothy R. Hall, instructor in mathematics; and Mrs. Ruth E. Ellis, assistant dean of women.

### BS Troop 108 Has Ceremony

Boy Scout Troop 108 conducted a Court of Honor in the picnic area of Canyon City Club recently.

Scouts were advanced in rank, recognized and presented with merit badges.

Receiving awards were Greg Livesay, first class; Steven Phillips and Mike Petty, second class; Mario Acosta, tenderfoot; Corky Barrett, Steven Phillips and Greg Livesay, mile swim badge.

About 40 persons were present for the ceremony which included a covered dish supper.

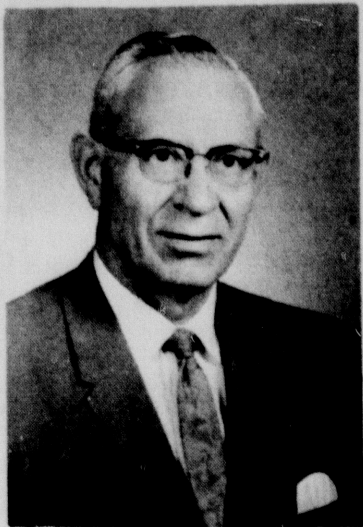

Two members of the troop, Greg Livesay and Ricky Ziegler, departed Monday for two weeks of camping and hiking at Philmont Scout Ranch in New Mexico.

Wanamaker has completed more than two years study toward his doctorate at Texas A & M University. He holds the B. B. A. degree from Sam Houston State College, and the M. Ed. degree from Stephen F. # Ticket Sales Excellent

With the start of the 1968 football season less than two months off, season ticket orders for West Texas State games are at an all-time high, Athletic Director Frank Kimbrough said this week.

The exceptional interest is sparked by prospects of the best season in the school's 58-year football history. The Buffaloes are a veteran team and have one of the most exciting runners in college football in half-back Eugene "Mercury" Morris, a senior.

Morris helped lead West Texas State to seven victories in 10 games last fall and a post-season triumph in the Junior Rose Bowl, now elevated to major college status by the Pasadena, Calif. Junior Chamber of Commerce and the NCAA.

Season tickets for five home

games are available in two categories, with chair for \$20 or without chair for \$17.50. The season ticket prices offer substantial savings over single game prices, but single game chair seats are available for \$5 and bleacher seats are priced at \$4 per game Kimbrough said.

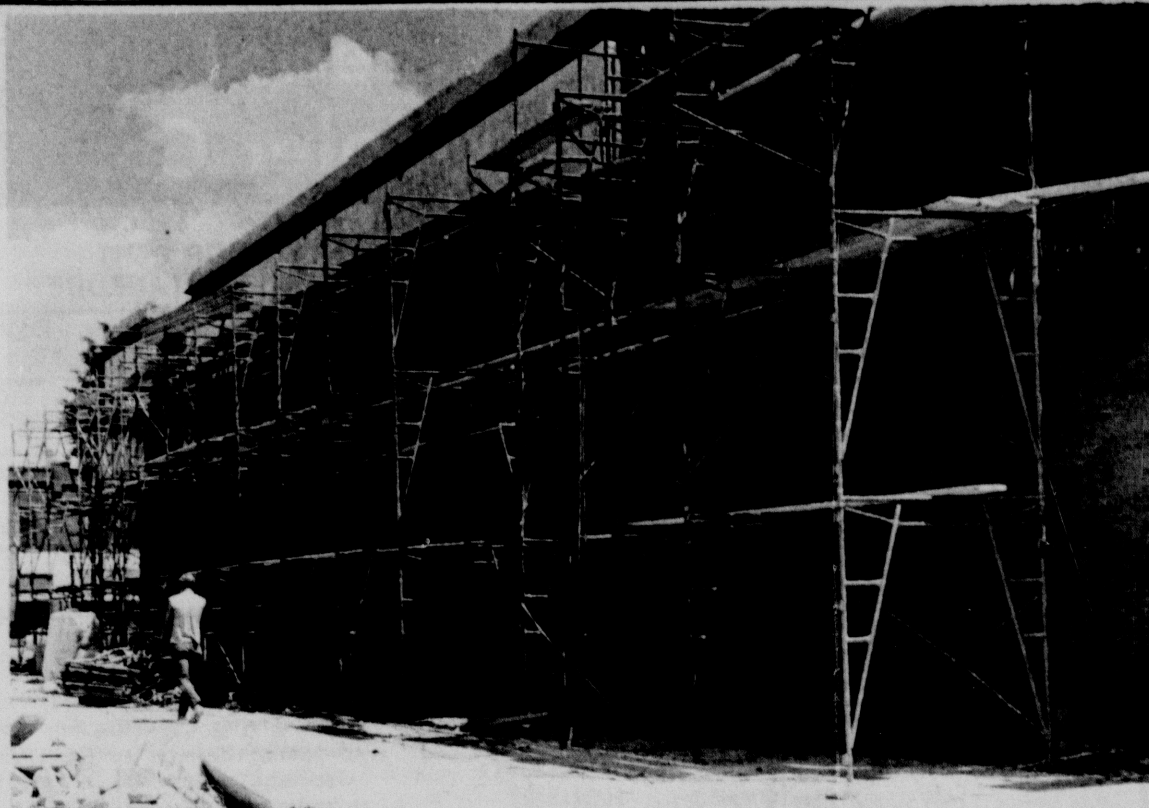

To assure the best seat selection for the early ticket purchasers, Kimbrough said, all orders are called to his office in Canyon and tickets will be mailed from there upon receipt of payment.

The Buffaloes open the season at home against Lamar Tech on Sept. 14 and have four other home games: Wichita State on Sept. 21, University of Pacific on Sept. 28, Texas-Arlington on Oct. 19 and Western Michigan on Nov. 9.

Season ticket orders can be

placed at the following locations outside the Amarillo-Canyon area: Happy, Harman-Toles Elevator, Vernon Harman; Pampa, Richards Drug, Joe Tooley; Vega, First State Bank; Raymond Thompson; Panhandle, Vibra Whirl Co., Ed Kinsey; Dimmitt, Higginbotham-Bartlett Lumber Co., Ward Golden; Tulia, Taylor-Evans Farm Store, Boyd Vaughan; Borger, First National Bank, Wix Price; and in Hereford, at the McDowell Pharmacy.

Tickets can be ordered also in Spearman, from O.L. Brummett at the Spearman Drug; Bovina, First State Bank, Bob Estes and Al Moody; Clarendon, Farmers State Bank, Joe Lovell; Wellington, Eddie Slay Clothier, Eddie Slay; Dumas, Roney Restaurant, Bill Roney; Dalhart, City Drug, Johnny Monden; Groom, Homer Oil Co., Bill Homer; and in Tulia, the First State Bank, Jere Sink.

## SOME NOSEBLEEDS CAN BE PREVENTED

Of course there are blood disorders which cause nosebleeds and a physician is required. But the average nosebleed is only a temporary discomfort. If this type of bleeding of the nose happens too often, perhaps the blood vessels in the nose may be too fragile, or too close to the surface.

Or, bleeding may be caused by a small ulcer, which bleeds from time to time. If so, it can be easily cauterized by your physician, or a nose specialist. If nosebleeding occurs too frequently, if it becomes a recurring nuisance, a physician should be consulted.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

additional diversion will earn payments and will reduce the number of acres permitted. "This diversion payment rate will be approximately 63 cents per bushel times your normal yield," Lloyd explained.

Wheat certificates will be paid on the farmers planted acres up to 43 per cent of their total allotment.

"Other features of the 1969 program," Lloyd said, "are farms with allotments of 21.7 acres or less may divert total allotment for payment; you can substitute between wheat and feed grains on a farm if you sign up in both programs; and if your farm has a barley base you can, upon request at sign up, substitute wheat for barley by diverting 15 per cent of your barley base. Also, you must plant within your permitted acres on other feed grain crops."

A pamphlet enclosed with the allotment notice gives additional information concerning the program, Lloyd concluded.

# Blind Man Training Own Dog For Seeing Eye Service Here

BY WAYNE BOARD

When the blind man harshly jerked the German Shepherd's choke collar, the animal was sent sprawling to the pavement, but the dog's master showed no sign of regret.

This type of reprimand is the only form of reproof Clyde McDonald will use to train his seeing eye dog, Missy, and probably can be considered "life saving" action.

Missy, only nine months old, is too young to realize she is the eyes for her master and probably one of his most important links with his outside world.

McDonald does not enjoy punishing Missy, nor does he intend to injure the canine, but he will do both in order to be assured she can perform under any conditions as his "eyes".

McDonald has been able to realize a life-long ambition while training Missy, because he always wanted to train his own seeing eye dog.

The "life-long ambition" situation arose recently shortly after McDonald's dog, Riki, died here. McDonald was prepared to undergo from four to six weeks of training in Morristown, N. J. with a new seeing eye dog.

"We started the training by taking a two-mile jaunt up a hill, but I couldn't make it because they found out I had high blood pressure," McDonald explained.

Noting that further tests by a Canyon physician revealed the high blood pressure condition, McDonald said he realized he had missed summer classes at the non-profit school in New Jersey.

"I've always had a secret desire to see if I could train a dog," McDonald declared, "so I talked to Dr. Markham (Dr. J. L. Markham, Canyon veterinarian) and he said he would try to help me find a German Shepherd I could train by myself."

Explaining the training program to which Missy was sub-

There were 193 young people in the United States to receive junior memberships last month.

jected, McDonald said he began four weeks ago with simply making friends and making the canine aware of a very few simple commands.

McDonald said he walked several times each day with Missy from the front of his home in the 1200 block of Sixth Avenue to the corner of the next block and later progressed in four days to what he described as "the thrill of a lifetime" by going into the busy business section of Canyon.

"I'll be your trainer--you can't get back at me," Mrs. McDonald said she laughingly told her husband when he first began working with Missy. "Now, I let them go on their own."

Pretty Stock Broker Says Market Exciting

At 25, Judy Thompson is the only active woman stock broker in the Panhandle and one of the youngest in the business. Judy is an attractive and feminine mother of three who has cut a niche for herself in a world dominated by men. She is a native of Amarillo and grew up there. Presently she lives north of Canyon and two of her three children attend Gene Howe School, a part of the Canyon School System. Mrs. Thompson got her education mostly in the school of hard knocks. She went to work for Uhlman & Company, now H. Hence & Company, as a teletype operator when she was 19. She had no previous experience and it was little wonder that she was somewhat bewildered by the hustle and bustle of the stock market. To get the job in the first place it had been necessary for her to learn to type. She bought a typing manual and in no time at all she was a proficient touch typist. She stayed with her first employer six months. Then she went to work for Parker, Ford & Company, now A. G. Edwards in 1962. "I was a one-girl office," Judy remembers. "I did everything. I was even a receptionist." Judy was bitten by the stock market bug. She started going to school nights. "I took a Dale Carnegie course and the A. G. Edwards preparatory course for the New York Stock Exchange examination. Then in May of this year she resigned her salaried job

and became a full-fledged broker. It was a proud day for Judy when she received her business cards imprinted with "Judy S. Thompson, Account Executive." "I enjoy my work," declared Judy. "I love the change. The market is never the same. It is entirely different every day." Judy arises at 7:30 each work day morning, skips breakfast and arrives at the office about 8:30. She reads The Wall Street Journal quickly and scans the Dow-Jones News. "I look at the wire service to see if Kosygin has shot someone," laughed Judy. "You can pretty well tell what's going to happen during the day by reading the Dow-Jones comment on what to expect." "The market opens at 9 and I begin calling clients," Judy gets most of her clients by reference. "If I have done well for someone they will refer their friends to me," she said. Mrs. Thompson said her favorite trading vehicle is options.

"Options are appealing to me because your risk is limited to the price of the option," she confided. At lunch time, Judy usually has a hamburger or sandwich and does research while she is eating. In her spare time, Judy often gives lectures on the stock market and speaks before investment clubs. Judy's life is not made up entirely of work. She loves travel, snow skiing and upholstering old furniture. Above all she likes working in her yard. For beginning investors, Judy has this advice. "Start small and find a good broker to help you."

RUTH LASSITER, president of the Tierra Blanca chapter of National Secretaries Association, visits with Fred Gene Hill of Amarillo who spoke to the group last Thursday evening.

## Tierra Secretaries Have Attitude Topic

"Attitudes and Practical Judgment" was the topic of a program presented by Fred Gene Hill at last Thursday's regular meeting of the Tierra Blanca chapter of the National Secretaries Association.

Hill is executive director of Catholic Family Service, Inc. in Amarillo. He also deals in marriage, personal and family counseling in Amarillo.

"Attitudes influence communication with others," said Hill explaining that "attitudes are formed from childhood and influence both spoken and written communications."

As a practical demonstration, Hill removed his coat and asked for volunteers to explain to him how to put it back on with the assumption that he had never seen a coat before. Members soon realized how much one assumes that another person knows. He explained that these false assumptions often hinder communications at all levels and is of special importance when training new employees.

Guests present were Mesdames Kitty Eudy, Jan Charles, Aretta Cook, DeRena Sears and Leoyd Dean Gower. Mrs. Claire Dooley was accepted for membership and will be installed in ceremonies at the August chapter meeting.

SHAMPOOING a customer is a part of the daily routine for Mrs. Cecil O'Donald, who is this week's homemaker. The mother of five, Mrs. O'Donald shares recipes for Strawberry Dessert, Corn Fritters, and Apricot Nectar Cake this week.

## Shares Favorite Recipes

Homemaker of the week, Mrs. Cecil O'Donald, shares summer recipes for Apricot Nectar Cake, Corn Fritters and Strawberry Dessert with our readers this week.

Mrs. O'Donald, the former Ruth Keenan, was raised at Breckenridge and came to Canyon in 1937 where she graduated from Canyon High School. She has a brother, Earl E. Keenan, in Killeen and a sister, Mrs. Ralph Ammons, in Amarillo. Her parents are deceased.

On October 3, 1942, Mrs. O'Donald and her husband, Cecil, were married. After a stint of duty with the United States Air Force, the couple returned to Canyon to make their home at 1210 Eighth Avenue.

He was raised in Canyon and his father, S. O. O'Donald, resides in Canyon. O'Donald's father will be 90 in September. He is the youngest son of ten children and has two brothers, Rusty and Dan, living in Canyon. Other brothers and sisters are Ruth Ridley of Bellview, New Mexico; Estelle McCoy of Rialto, California; Mildred Webb of Tucson, Arizona; Kathryn Cavanaugh of Amarillo; Marie Breithling of Tulsa; and Truett and Mary Jean, both deceased.

Mr. O'Donald has been with Southwestern Public Service in Canyon since October 1945 and his favorite pastime is football games held here and on television.

The O'Donalds are members of the First Baptist Church, where until recently he was a Sunday School teacher for 12-year-olds.

After getting her family under way, Mrs. O'Donald took time out to attend San Jacinto School of Beauty in Amarillo and earn her license as a beautician. She has been in beauty work since 1954 and owns and manages a beauty shop just to the rear of the family home on Eighth Avenue.

The O'Donalds are the parents of five. Their oldest, Mrs. Travis (Jana) Jolly, lives in Amarillo and has three young daughters, Serena, Robbie and Donna Sue.

The couple's three sons, James Truett, 24, Daniel Eugene, 22, and Cecil Curtis, 17, all reside at home.

James Truett is a graduate of Canyon High School, has completed four years with the United States Marine Corp and has completed two years of study at West Texas State University. He is an electrician with Bell Helicopter in Amarillo.

Daniel Eugene also graduated from CHS and has completed six years duty with the National Guard. He attended WTSU and is presently involved in dredging operations with King Fisher Marine Service.

Cecil Curtis will be a senior at Canyon High School this fall. He likes football, like his father, and was benched last season due to a concussion. He plans to play football again this fall, barring further injuries.

The O'Donald's youngest child is Jean, 12, who will be a sixth grade student at Rex Reeves Elementary School this fall. She is an active scout and enjoys playing the piano.

Among her own hobbies, Mrs. O'Donald stated that "she likes the daily routine of life and enjoys reading, cooking, crochet work, crossword puzzles and working with women's hair."

Her recipes to share are:

**APRICOT NECTAR CAKE**  
1 box yellow cake mix  
3/4 cup cooking oil  
3/4 cup apricot nectar  
4 eggs, one at a time  
2 Tbsp. lemon extract  
Grease and flour loaf pan. Mix all together adding eggs to batter one at a time. Pour into pan and bake 30-40 minutes in 375 degree oven.

Frost with mixture of 1 cup powdered sugar to which has been blended 4 Tbsp. apricot nectar or pure lemon juice. Pour over cake while hot.

An excellent, easy summer dessert.

**CORN FRITTERS**  
1 beaten egg  
1/2 cup milk  
2 cups corn  
1 1/2 cup flour  
2 tsp. baking powder  
1 tsp. salt  
pepper  
1 Tbsp. bacon drippings

Mix egg, milk and drained corn. Sift dry ingredients and add to batter. Add grease and beat well. Drop by tablespoons into hot grease and fry until brown.

**STRAWBERRY DESSERT**  
50 large marshmallows  
1 cup milk  
1/2 pint whipping cream  
1 pkg. strawberries  
1 pkg. strawberry jello (prepared)

Melt marshmallows in milk and allow to cool. Whip cream and add cooled marshmallow mixture. Put in graham cracker crust. Add prepared strawberries and jello. Refrigerate and top with whipped cream and chopped nuts if desired.
